

Your Home Away from Home

Mississauga Long Term Care Facility is a team of very dedicated and experienced people who have cared for many seniors that have chosen to live in our cozy home for loving care, personal well-being, belonging and security. The foundation of our care is built on our excellent staff with an average of over 10 years of service with our facility.

We recognize each person's past experiences, community connections and individual needs. We acknowledge each resident's uniqueness and strive to meet their social, emotional, physical and spiritual needs.

We have a home that is safe and comfortable.

Our person centered approach to caring for our residents involves listening, collaboration with the resident and family, sharing ideas and seeking feedback. We recognize that family members are integral members of the care team because they provide important information to help us care for their loved one.

Our vision is "to be the closest we can to home away from home."
