OUR STORY

Peak Home Health Care is a family owned business that was created in memory of our dear mother and Grandmother, Joyce. Our personal journey has made us realize how important it is to a person's well being to be able to stay in their own home for as long as possible. Without a doubt we believe that Joyce lived a longer and happier life for this very reason. We also understand however that this is not always an option for every family without some outside help. So for us, Peak Home Health Care is our way of paying tribute to a woman who greatly influenced our lives. We want to help other families take care of their loved ones as we were once able to. We have a diverse staff equipped to care for our clients and perform a variety of skilled and unskilled tasks. More importantly, they are trained to provide this care with the warmth and devotion of a family member. All of our clients are considered to be an extension of our family and it is our mission to make them feel that way. So, if you or someone you love is in need of company or assistance, we encourage you to reach out and inquire about our many companions and caregivers. We provide a free consultation to determine if and how we can be of service. Together we can put a plan in place that will help everyone live a happier and healthier life.
