

## Our Values

**Focus on the Client:** Listen, observe, learn and remain responsive to change.

**Services:** Offer a value portfolio of quality home health care services that satisfy our client's desires and needs.

**Passion:** Be committed in heart and mind in everything we do.

**People:** Be a great place to work where we attract the best team members who are inspired to be the best they can be.

**Make a Difference:** Make our communities a better place to live by inspiring moments of optimism, fun and happiness.

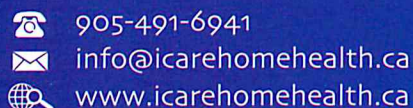

## Contact Us

If you or someone you care about has long or short term home care needs, then call us anytime for a personalized assessment and caregiver match.

### Nurse at Home

- Qualified Nursing Support
- Wound Management
- Hospital Discharge and Follow Up Care
- Complex and Special Needs

## Our Story

Grounded by personal experiences in struggling to find adequate health care for family and friends, iCare Home Health Services was created with a fresh, and "joie de vivre" (joy of life) approach to help keep their loved ones – young or old, in their homes while they recuperate from injury, recover from a medical condition or just enjoy life.

With so many options out there, we understand how overwhelming and uncertain this decision may appear. Just remember you are not alone. We understand the desire for your loved ones to stay safely at home without losing personal independence.

We also know that it is about caring, not just home health care. That is why we are committed to bringing in the most caring people into your home.
